Thank You

Music and Lyrics by Karen Bonkowski (cc)

Some music by Jonathan David Sloate

It's not autumn but it feels like it where you are
And if someone else approached me I would send
them far

Lucky for me They sent me you
And your beaten up car
Personality too cause you know who you are.

You embrace me with a melon kiss in the dark
Then you tell me that I'm nerdy but you think it's hot
Spend an evening with you and make this whole stay a
good calendar mark
Or I can just walk away play it safe with my heart.

It's been so long since I've been treated like I'm art.
So be careful cause I'm special I've been torn apart.
These few hours with you changed my point of view
I can make a new start
I know just what to do
Inspirational cue.
So thank you.
