Loves u-us all, He just loves u-us all
In Hi-is heart, He keeps us all
He keeps us all

Wants you-ou all, He just wants you-ou all
In Hi-is world, He needs you all
He needs you all

And the whole mankind isn't far
Day and night, day and ni-ight
Who'll be the one to show the light
Clear and bright, clear and bri-ight

Loves u-us all, He just loves u-us all
In Hi-is heart, He keeps us all
He keeps us all

And the whole world is asking now
Tell me how, tell me how-ow-ow
How to forget all the pain
Once again, once agai-ain

Loves u-us all, He just loves u-us all
In Hi-is heart, He keeps us a-a-a-all

Loves u-us all, He just loves u-us all
In Hi-is heart, He keeps us all (He keeps us a-all)
He keeps us all (He keeps us all...)

Loves you-ou all (He loves you a-all)
He just loves you all (He loves you a-all)
In His world, He needs you all (He needs you a-all)
He needs you all...
