"You Are the Reason"

Visit "[You Are the Reason](#)" on MotoLyrics.com

You are the reason my love grew alive
You are the reason I live, you are love
You are the reason I sing
We will make with our love, such a beautiful thi-ing

And you ask if it's real, do I care
I pretend you don't know
Just believe what you see in my eyes when they glow
Look at me, is this love that you see
For as long as I live, all my love I will gi-ive

You are the reason my love grew alive
You are the reason I live, you are love
You are the reason I sing
We will make with our love, such a beautiful thi-ing

When you tell me that you feel you're not sure
(You are the reason my love grew alive)
Just believe what you see
(You are the reason I live, you are love)
Let you heart be the key to the door, let it be
Look at me, is this love that you see
For as long as I live, all my love I will give

Because it's you
You are the reason my love grew alive
You are the reason I live, you are love
You are the reason I sing
We will make with our love, such a beautiful thi-ing
We will make with our lo-ove, such a beautiful thi-ing...
