Are you gonna die with that music inside / did you
catch the twilight on your way into work / you can live
anything you can think / man I'm not lying to you and
yeah that's a threat / I don't want to have to bury you
like this / something's gotta get your attention / if I
have to crack open your skull with my fist / I'll let the
light and the sound escape

Listen now / you can hear the sound / surrender and let
the light come out / don't be afraid / let me hear your
voice / what you will live is what you make

I know you've worked hard your whole life / and now
your tired the money is never enough / it's never gonna
be enough man that's not even the point / the only
thing you can't afford is to keep buying the lines your
fed / I know it's comfortable to go back to sleep / take a
look at what you've been lying in / before you wake up
in search of your paycheck death / the demons of
regret are making your deathbed

Listen now / you can hear the sound / surrender and let
the light come out / don't be afraid / let me hear your
voice / what you will live is what you make / don't be
afraid / let me hear your voice / let the light come out /
cause I'm ready now / like I never was before / to see
what this is all about
