Who cares it still happened  
I was kicked and left so stranded  
All those years I spent alone  
You expect me to crawl home

I was your girl with auburn curls  
But what was is no more  
I was your girl  
I was your girl  
Made to embrace this world

How do you Expect me to change ?  
When a home is lost  
and doesn't remain  
You deserve no thank you  
for who I became  
Standing strong on my feet  
I played the game

I was your girl with auburn curls  
But what was is no more  
I was your girl  
I was your girl  
Made to embrace this world

I was your girl  
I was your girl  
Made to embrace this world
