Blue. green. yellow. red.
My new life in my head:
The day the world turned ultraviolet.

Labels I've got to get,
Neighbours I've never met:
The day the world turned ultraviolet.

Ultraviolet. ultraviolet.
The day the world turned ultraviolet.
The day the world turned ultraviolet.

Exalted by commercials
Which say that cars add to sex-appeal
Or that banks help you with your life
I have to return some videotapes.
I have to return some videotapes.
I have to return some videotapes.

Ultraviolet. ultraviolet.

Ultraviolet. ultraviolet.

I have to return some videotapes.
I have to return some videotapes.
I have to return some videotapes.

I have to return some videotapes.
I have to return some videotapes.
I have to return some videotapes.

Ultraviolet. ultraviolet.
