Kiss your sorrows goodbye
Let it fade into the night
Wipe the tears from your eyes
Show the world your smile
So many reasons to be happy
Look around and you will see
All the things that might have come your way
It's just part of life's mystery
Don't frown, dont let it bring you down
Just listen to the children's laughter
Set aside your fears and doubts
Dont frown, dont let it bring you down
For the world has lot to offer
Take a look around
Dooh, dooh..hmmmh..mmmh..
Ooooohh,..

Don't frown, dont let it bring you down
Just listen to the children's laughter
Set aside your fears and doubts
Dont frown, dont let it bring you down
For the world has lot to offer
While you are still around..
