So many times
I tried not to think of you
But each time i try
The more i cant get over you

Memories of our love stories
Still hunt me every sinlge day
So i pray you'll be back
In my arms someday

Oh, every morning
Just before the sun arises
How i long to see your smile
I still long to see your face

And feel the warmth of your embrace
And so i ask the stars in the sky
Why cant i have you back in my life?

And I hold your hand just for tonight
Lay beside me
Hold me close like you wont let me go away

I still long to see your face
And feel the warmth of your embrace
And so i ask the stars in the sky
Bring back the love that i once had in my life

I will hold your hand just you and me tonight
Lay beside me,
For I will never ever let you go away..

I still long to see your face
And feel the warmth of your embrace
And so i ask the stars in the sky
Why cant i have you back in my life?
