Look how the wind blows
See if sets you straight
Is it short of amazing
Again.

As soon as it feels right
I think you should burn this place
Me and my shadow
Are 2 of the same.

You say a one time sin
I call it medicine.

Where did the lights go
As soon as I close my eyes
Far from amazing
2 of the same.

You say a one time sin
I call it medicine.

You say a one time sin
I call it medicine.

Stop, don't make another sound
Stop, you'll make it out.

Look how the wind blows
See if it sets you straight
Is it short of amazing
Again.

Stop, don't make another sound
Stop, you'll make it out.
