A Beer Is Better Than A Woman Lyrics

A beer is much better than a woman, I'll tell you why im
right

A beer will not get mad if I stay out and drink all night

A beer will go down easy, a beer is allways wet

Do I want a wife? No thanks! Another beer? You bet!

A beer wont fake a headache, a beer wont tell me stop

A beer will not get angry when try to take off it's top

A beer wont call me selfish, a beer will understand

If one night I prefer to have it the can

I love my beer, let it be said

I guarantee if you pour it right you'll allways get good
head

I love my beer, there is no doubt

If beer goes flat, just toss it out

A beer is much better than a woman, now this is
understood

You don't have to wash a beer to make it taste real
good

A beer wont get premenstrual, each month of the year

And I wont pay allemony if I decide to dump my beer

I still drink beer, I'll never quit

When a beer is getting pissed it'll never throw a fit

Is that beer cold, hell I don't mind

A fridged beer is the best kind

I love my beer, let it be said

I guarantee if you pour it right you'll allways get good
head

I love my beer, there is no doubt

If beer goes flat, just toss it out

If beer goes flat, just toss it out

Now give me another beer baby and shut up!
