Who gives a shit!
If people are starving & disease is spreading
If rainforest are destroyed & animals tested
If poverty & crime & militar leader arise
If the strong rule over the weak by law

I have better things to do than complain about a
fucking shit
I rather pave the rainforests and kill all greenpeace
fuckheads

Who gives a shit!
If people are tortured, chased & maimed
If leaders are oppressing by force
If war are raging on & on & on

I have better things to do than complain about a
fucking shit
I rather go hunting some animalia shitheads
Take away their rights and destroy their organizations
By acting fast & violent we can become the strongest
nation

Who gives a shit!
