"Here Come All the Boys"

Visit "[Here Come All the Boys](#)" on MotoLyrics.com

Had more love than I care to mention
Broke the rules of natural selection
They try so hard to get my attention
Mister meet your brand new obsession

Join the peep show
Quit ya go slow
Jump the intro
It's all set to blow

Here come all the boys
Fighting for my love
And when they get a taste
They'll never get enough
And here come all the boys
I've got them lining up
And when they get a taste
They'll never get enough

They'll never get enough
They'll never get it

Hit me like a head on collision
Gentleman take your positions
Give me more than cheap ass affection
More than just a weekend addiction

Stop and replay
Drop the cliché
Got my freak say
Drag it to the floor

Here come all the boys
Fighting for my love
And when they get a taste
They'll never get enough
And here come all the boys
I've got them lining up
And when they get a taste
They'll never get enough

Here come all the boys...
And here come all the boys...

And if you're hard enough I might
Just get you through the doors tonight
And if you're hard enough I might
Just let you through, so hold on tight

Here come all the boys
Fighting for my love
And when they get a taste
They'll never get enough
And here come all the boys
I've got them lining up
And when they get a taste
They'll never get enough

Here come all the boys
Fighting for my love
And when they get a taste
They'll never get enough
And here come all the boys
I've got them lining up
And when they get a taste

They'll never get it!
