I calle du brazen called the whore right to your face  
and watch u silently an dpublicly disgraced  
I didn't notice when u strenghted like a vice  
that u were trembling and burned benesth the ice.  
Why don't u weep  
when I hurt u  
why don't u weep  
when I cut u,  
u don't bleed,  
and the anger  
builds up inside [X2].  
U said a prayer  
and I betrayed u with a kiss  
I never realized that all had come to this  
so keep your dignity don't throw it all to waste  
stronger feelings than u've ever learned to face
