You said that mines was free  
I see my friends there hanging around  
All I wanna see

I'll wait for you to comfort me  
My mind this is  
I'll wait for you to cover mine  
My mind's diseased

I'll wait for you to comfort me  
My mind this is  
I'll wait for you to come to me  
My mind's diseased

I had this place among the ghetto  
I'm drunk, I'm dressed  
So kill me now  
I'm home

It's Christmas time again  
I'm drunk, in love  
So kill me now  
I'm on the couch  
The TV's on

Wake up, come on  
Sleep in my clothes  
I have this place inside your pillows  
Fills up my heart with piercing snow  
And all the choices start to show

That's wrong, I'm drunk  
So kill me now  
And all these questions start to crawl  
That's right, I'm drunk  
So kill me now
