Released on cd single have I told you lately, 1993 Mike
reid, troy seals Call me a fool Send me away I've got to
say It's you I adore Alone and in love Falling apart I
followed my heart Straight to your door Face to face With
all honesty I would be great full If you'd give to me One
night, to lay in your arms One night, could it be that I
was born To make every dream you never had come
true Oh oh oh oh One night, just one night with you Call
me baby Standing this close The sound of your
voice Leaves me no choice Am I so wrong To think ()?
cause baby you're all You're all I'm thinking of Face to
face With all honesty I would be great full If you'd give to
me One night, to lay in your arms One night, could it be
that I was born To make every dream you've ever had
come true Oh oh oh oh One night, just one night with
you One night, to lay in your arms One night, could it be
that I was born One night with you In all honesty Just one
night To lay in your arms Just one, just one night, that's
all I want baby Oh yeah
