You don't want your life to change
You're afraid to rearrange
And you're scared to let go
Of a life that you know

And you think this is all there is
And you think it's as good as it gets
But how will you know
If you don't go

Cuz you've got the sun and you've got the moon at your
fingertips
You gotta do whatever it takes to get your hands on it
And I know if you work real hard you can do anything
You've got it all at your fingertips

You might think it's all too soon
Well I once was young like you
And I'm here to tell you the truth
And I am living proof

That this is not all there is
And this isn't as good as it gets
You ask how do I know
Just trust me and go...

Cuz you've got the sun and you've got the moon at your
fingertips
You gotta do whatever it takes to get your hands on it
And I know if you work real hard you can do anything
You've got it all at your fingertips

And you'll know you're on your way
And there will come a day
When you can say...

That you've got the sun and you've got the moon at
your fingertips
You're gonna do whatever it takes to get your hands on
it
And I know if you work real hard you can do anything

Cuz you've got it all at your fingertips
At your fingertips
At your fingertips
At your fingertips
