Long live the child and the man  
Long live the mother and the lad  
The hills behind us and the sea  
Reach out to welcome you and me  
Valley deep and mountain tall  
Lie upon the ground before us all  
Strange are the colours of the turf  
Heralding the rebirth of the earth  
Gather all your energy and try  
Give birth to a smile  
Give birth to a smile  
Give birth to a smile  
(Everytime you think about it)  
Give birth to a smile  
Give birth to a smile  
Give birth to a smile  
Give birth to a smile  
Give birth to a smile  
Give birth to a smile  
Give birth to a smile  
(Hear me tellin' you)  
Give birth to a smile  
(Give birth to a smile)  
Give birth to a smile  
(Give birth, give birth)  
Give birth to a smile  
Give birth to a smile  
(Every day of your life)  
Give birth to a smile  
(Give a little birth to a smile)  
Give birth to a smile
