Featuring Snoop Dogg & Brandon Beal

(Intro)

Yo Kato
It's your uncle, Rich Snoop Dogg
Never let em, never let em go

(Verse)

Baby, I don't have all the right words to say
So if I come off crazy
That's just a chance I gotta take
But baby now I've got you here
I'm gonna make it last forever, yeah
I don't care who's watching, let them stare
Tell me what you like, I'll take you there

(Bridge)

Can you feel it?
Gonna let you know
That I feel it
It's time to let it show
It drives me crazy whenever you're around
Let me hold you down

(Chorus)

And I will never let you go
I will never let you go
It's you and me against the world
And I will never let you go

(Verse)

Come and smoke with me and let your hair hang down
Have a shot and see if you can drink that down
Come and sleep with me and creep around this town
Be in ecstasy cause I'll be showin' you how
This is all I do, I make the things drop down
And once you pick it up, I'll make you say bow wow
Do it secretly, so we love profound
Like that from the back clap clap yep yep that doggy
style

(Bridge)

Can you feel it?

Gonna let you know

That I feel it

It's time to let it show

It drives me crazy whenever you're around

Let me hold you down

(Chorus)

And I will never let you go

I will never let you go

It's you and me against the world

And I will never let you go

(Verse)

So stick around, you can count on me baby, I'm down
on my knees

And I will be there girl I swear I'm giving you all that you
need

So tell me, are you down, down?

Are you down, down?

Cause it's already a quarter to three

And all we got is right now (only right now)

And I won't stop till you're all over me

(Chorus x2)

And I will never let you go

I will never let you go

It's you and me against the world

And I will never let you go

(Outro)

Like that yep yep that doggy style
