Trees falling leaves come alive, watch them glide
Eyes come to life when you smile for a while
Tables keep turning,
Now the full moon has been seen
Know what I mean

Tell you what to do babe all night long
It would take me all night long
Show you how I feel all night long
I've seen you in the papers,
They say you play at pool
I think you've got me snookered
If we play your rules
Maybe you can't see the way to be sure anymore
I can't help feeling like closing the door
Images are fading
And the thought of you has gone
Baby it's wrong

Cause all I need is you all night long
It would only take me all night long
They say you read me like a book
Then make the book a film
You could write the screenplay,
I can't wait till then

I wish I knew what I could do
It feels like something's over due
Communications broken down
Still got me snookered
When you wear your crown
All night long

It would only take me all night long
Won't you won't you give me all night long
I've seen you in the papers
They say you play at pool
I think you've got me snookered
No exceptions to the rule
Give me all night long
Won't you won't you give me
All night long

It would only take me all night long
To show you how I feel all night long
