"Long Long Time"

Visit "[Long Long Time](#)" on MotoLyrics.com

Talk that same old talk again
Just the way you did back then
A feelin' that I almost left behind
It's been such a long, long time

Say the things you used to say
Make me feel the same old way
A feelin' that I almost left behind
It's been such a long, long time

Does it ever stop changing
Does it ever change at all
How can we pick up the pieces
After we let them fall

If they ever were there at all

Does it ever stop changing
Does it ever change at all
How can we pick up the pieces
After we let them fall
If they ever were there at all

The same old look is in your eyes
The feelin's that you can't disguise
A feelin' that I almost left behind
It's been such a long, long time

Do the things you used to do
Make me fall in love with you
A feelin' that I almost left behind
It's been such a long, long time
