I gotta get up I gotta get goin' rain or shine sleetin' or  
snowin'  
Nothing can stop me stop me stop my loving you  
Wander through woods climb a high mountain  
Love's in my heart like waters in a fountain  
Nothing can stop me stop me stop my loving you  
Cross the fire walk through river you'll be the taker and  
I'll be the giver  
I'll give you lovin' lovin' honey that's what I'll do  
Climb a big wall I'd tear into pieces I gotta get to your  
love and kisses  
Nothing can stop me stop me stop my loving you  
[ steel - fiddle ]  
I can't stop praisin' the day I found you  
I'd walk a hundred miles just to be around you  
Nothing can stop me stop me stop my loving you  
Nothing at all nothing in the world can make me stop  
fallin' for you my girl friend  
Nothing can stop me stop me stop my loving you  
Cross the fire walk through river...
