"Same Old Sound"

I've been all around the world
Playing songs for all the boys and girls
Well I've traveled up and down
Got to barnstorm every town

And everywhere I'm bound
I got to play that same old sound
Got to play that same old sound
Goin' round and round

Lots of faces passin' by me
Lots of love to satisfy me
At times I didn't know my name
But I always knew the rules of the game

And everywhere I'm bound
I got to play that same old sound
Got to play that same old sound
Goin' round and round

Look who'r up here on the stage
No one's noticin' my age
I'll give you somethin' good to hear
I only learned to play by ear

And everywhere I'm bound
I got to play that same old sound
Got to play that same old sound
Goin' round and round

I did it for your sister last year
Goin' to slip it right into your ear

And everywhere I'm bound
I got to play that same old sound
Got to play that same old sound
Goin' round and round
