Did you ever feel unwanted kicked around so much
you're taunted
Heart cries out with so much pain well that's the way I
feel
Love someone and loved her dearly spoke sweet words
she didn't hear me
Left me here heartsick and lonely that's the way I feel
To cry would do no good I used to think it would
But the more I cried the more I believed here's what I'll
do
Let this feeling have it's day maybe it will go away
Maybe I will find another that's the way I feel
I can let heartbreak overcome me just because of the
way she done me
I'll forget I ever loved her that's the way I feel
[fiddle - guitar]
To cry would do no good...
Yes I'll forget I ever loved her that's the way I feel
