You say that others tempt you and it's hard to turn  
them down  
You say that you get lonesome when I'm not around  
Please remember you're my kingdom and I want to  
always wear a crown  
Though temptation's knocking please don't let him in  
Tell him that it's my arms you long to be in  
Please remember you're my kingdom and I want to  
always wear a crown

And tell your heart these times that we're apart  
And you're so alone that my love for you goes on and  
on  
Though temptation's knocking...  
[ ac.guitar ]  
And tell your heart these times...
