I know I've given up on fate,
it was never on my side,
you're a pain in my side

Awkward stares,
the billionaire compares just how much love you cannot
buy,
this chance has past you by

You'll be staring down the knife,
with the best of them,
with the best of them,
with your so-called friends

Chorus: Why can't I be left with a goodbye,
or a goodtime to remember you by
(remember you by)

You don't look to pretty with your make
up smeared on the pavement and I hate it,
I hate the way it makes me feel

Imploding minds, filled with the common cliché ties,
and the lines, that you've spoken

Angelics' not an issue for you,
cause on a scale from 1-10 you're a dead 0

You'll be staring down the knife,
with the best of them,
with the best of them,
with your so-called friends

CHORUS x2

Too bad it wasn't me (x3)

(To curse poor melanie) x 4

(To drown her in her sleep that night)

(To be standing at her deathbed side)
