Well if you ever want to get depressed just come to this town  
Nothing to do from dinner to breakfast in this town  
Four street lights and one old grocery I ain't long to stay here no siree  
I'm bound to catch the next greyhound leavin' this town  
I've seen towns but no town's as bad as this town  
It don't take long to feel lowdown in this town  
Soon cotton's gone opened up and I'm gonna pick it  
Just long enough to make enough to buy myself a ticket  
I'm bound to catch the next greyhound leavin' this town  
Here I stand on the dusty road leavin' this town  
A hoping that dog ain't got a full load leavin' this town  
The state built new routes just for travel they got the pavement and we got the gravel  
That's the reason everythin's dying around here in this town  
Well there's lots of sunshine very little hay in this town  
The mail don't run but every other day in this town  
Four street lights and one old grocery I ain't long to stay here no siree  
I'm bound to catch the next greyhound leavin' this town  
Well we don't reap we don't sow in this town  
Things are so bad that the weeds won't grow in this town  
One two three four five six seven this town can go to one place I'm goin' to heaven  
I'm bound to catch the next greyhound leavin' this town
