Let me praise with million roses
God's messenger, who composes words
That you speak

Let me worship every flower
Of your garden, let desire burn us
In the heat

(Ref)
In your sad, sad eyes
I will hide the time
In your sad, sad eyes
I'll be waiting
(Ref x2)

Sun's ashamed, you're shining brighter
Let me be the softest carpet for...
... For your feet
We have signed so much in silence

In our whispering alliance, let me
Let me speak

In your sad, sad, sad eyes
I will hide the time
In your sad, sad eyes
I'll be waiting

(Sax, guitar solo)

In your sad, sad, sad eyes
I will hide the time
In your sad, sad eyes
I'll be waiting, waiting

In your sad, sad, sad eyes
I will hide the time
In your sad, sad eyes
I'll be waiting...
