What's that playing on the radio? On the radio, on the radio

I hear the music blasting from across the hall
It drives me crazy I can't take it anymore
Until it stops I'll keep banging on your wall
What's that playing on the radio?

I'm reaching out to you but you don't hear my call
I'm aggravated I can't take it anymore
If you don't answer me I'll break this fuckin' door
What's that playing on the radio?

Your fuckin' music's got me edged against the wall
I've had enough of it I can't take it anymore
I'm feeling nauseous and my ears are getting sore
What's that playing on the radio?
Can't you hear my aggravation?
Full of anger and frustration
Blown my fuse I'm so impatient
Tired of this situation
I just want an explanation
What is with your generation?
Tell me what's your motivation
I just want to scream!
