dont come around here baby  
all wrapped up in silk and curls  
without expecting my fingers  
walking all upon you girl  
your now just to me  
ive got my needs  
so if your gonna work that body baby  
im gonna wanna be pleased

i want you to shake it, shake it  
stir it up on me  
i want you to shake it, shake it  
give me what i need  
cause the way that you shake it, oh baby  
brings me to my knees  
shake it up, shake it down  
wind it up and around  
shake it baby just for me

the way you grind those hips  
the way you wear that smile  
you make a strong man weak  
you make the tamed go wild  
all that i can do  
about the way you sweat  
about the way you wear those curves baby  
your troubling that dress

i want you to shake it, shake it  
stir it up on me  
i want you to shake it, shake it  
give me what i need  
cause the way that you shake it, oh baby  
brings me to my knees  
shake it up, shake it down  
wind it up and around  
shake it baby just for me

i want you to shake it, shake it  
stir it up on me  
i want you to shake it, shake it

give me what i need  
cause the way that you shake it, oh baby  
brings me to my knees  
shake it up, shake it down  
wind it up and around  
shake it baby just for me

all night babe, oh baby

i want you to shake it, shake it  
stir it up on me  
i want you to shake it, shake it  
give me what i need  
cause the way that you shake it, oh baby  
brings me to my knees  
shake it up, shake it down  
wind it up and around  
shake it baby just for me

i want you to shake it...

i like the way you move girl  
i love the way you work your body  
the sexy way you move girl  
i love the way you work your body

i like the way you move girl  
i love the way you work your body  
the sexy way you move girl  
i love the way you work your body, yeah
