I'll find a place for you
And change you
And change your skin

I saw you counting on your fingers
I assumed you were intelligent
You were just counting sheep
How many to lead astray
Im ravenous with the will to kill
The will to kill

Flee this flock I'll eat you first I swear to god I will
I've got all types of beef with other people's sheep
Just you come around again I'll find you I will
Come around again and I'll let you down

The butcher he tastes blood
I spied it from afar
And the smell it lent evoked in me
Im ravenous and have
No use for sheep
I have no use for it

Flee this flock I'll eat you first I swear to god I will
Wont you grasp my hand
I swear its not that bad
Im not crazy like the others say I am
You can be mine for the rest of our lives

You brought my girlfriend to this party?
By the second date you should go for the kill
Go for the kill
Go for the kill!

Second date you should
Go for the kill,
Go for the kill!!!!!!!
