This time do you feel it?
Doin' the starman thine
Gazing at perfect stuff
This time can you use it?
Over the ocean
You and your wildmen

This time should we take it?
Maybe it's just a trap
Probably won't get out
This time should we blow it?
Over the naked wall

As tempting as summer?

This time we will feel it
Bathe in a gas of sorts
Occur in ecstatic rooms
This time do you see it?
Over the ocean
Billy the rain cloud

This time should we stand up?
Follow the exit signs
Maybe it's not so bad
