Live up  
This is for the lovers  
This is for my baby  
Makeida will never give up

Is this really love  
That am I going through  
If it's really love  
What are we gonna do  
I can feel the love  
I know you feel it too  
You must be the one  
Cause I feel you

We knew this from the start  
That we would have to part  
Over and over,  
This question I'm asking  
Is always on my mind, yeah  
When I think I found the answer  
It changes every time  
I don't wanna let go  
Of a love that's so sublime

Is this really love  
That am I going through  
If it's really love  
What are we gonna do  
I can feel the love  
I know you feel it too  
You must be the one  
Cause I feel you

Now I finally found that answer  
To the questions of my heart  
It doesn't matter where you'll be  
Or whether we're apart  
Cause baby I'll be lovin' you  
From the bottom of my heart  
And all my heart, and all my soul  
I give it to you

Is this really love  
That am I going through  
If it's really love  
What are we gonna do  
I can feel the love  
I know you feel it too  
You must be the one  
Cause I feel you

When we touch, when we kiss  
When you hold me boy  
I feel you  
And in the night when it's cold  
And you keep me warm  
I feel you  
This loving is driving me crazy boy  
Cause I feel you  
I'm feeling you  
I'm feeling you  
I'm feeling you

Is this really love  
That am I going through  
If it's really love  
What are we gonna do  
I can feel the love  
I know you feel it too  
You must be the one  
Cause I feel you
