Over and over again you keep asking for prove.  
And over and over again I keep telling the truth.  
If you stay a moment to close please be kind.  
There's an answer that I know looked in my mind.

We're simply friends what more can we do.  
Simply friends just me and just you.  
Simply friends that dream a dream of love forever.

Simply friends that's all what we are.  
Simply friends who love from afar.  
Simply friends that spend their lonely times together -  
together.

Over and over again we get trapped in the past.  
And over and over again you know nothing can last.  
Life goes on and what done is done - it can't be  
changed.  
Take my hand and I lead you the way.

We're simply friends what more can we do.  
Simply friends just me and just you.  
Simply friends that dream a dream of love forever.

Simply friends that's all what we are.  
Simply friends who love from afar.  
Simply friends that spend their lonely times together -  
together.

Together - oh, together...  
Together - oh, together...  
Together...
