So many nights I've wondered,
How we made it through
And times when our dreams were lost
In the midnight blue
Just when our hearts were close and down
Baby, we found the side to turn the night around, well.

That's the genius of love.
That's the way that it works.
That's the way that it helps you through the night.
That's the genius of love.
That's the way that it is.
That's the way that it takes control
And never gives up the fight.
That's the genius of love.

Remember the moments love,
When lovin' slipped away.
Finding our body talk
And nothing left to stay.
Just when we thought we'd lost the flame.
Baby, your single touch
Will like the fire again, well.

That's the genius of love.
That's the way that it works.
That's the way that it takes you by surprise.
That's the genius of love.
That's the way that it is.
It descends before your eyes
That's the genius of love.

That's the way that it makes you guess,
It's twelve o'clock,
We had a bad time,
Then the day where nothing goes right.
Suddenly the two of us fight,
If we turn on the light in the middle of night.

That's the genius of love.
That's the way that it works.
That's the way that it helps you through the night.

That's the genius of love.
That's the way that it is.
That's the way that it takes control
And never gives up the fight.

That's the genius of love.
That's the way that it works.
That's the way that it takes you by surprise.
That's the genius of love.
That's the way that it is.
That's the way that it makes you guess
It descends before your eyes.

That's the genius of love.
That's the way that it works.
That's the way that it helps you through the night.
That's the genius of love.
That's the way that it is.
That's the way that it takes control
And never gives up the fight..
