Every night when I awake in a cold sweat,
I look to my left and I begin to cry,
and I ask why oh why did it have to be you
the one I loved and the one I adored to leave me
forever
the two years we were together were very special,
because even though we were in love we wouldn't be
together forever
because hate took you away from me forever

Everyday I miss you more than you'll ever know
but you'll always be in my heart

When I go out with my friends
I look where you usually be with your friends
but I always get disappointed because you're not there
anymore
and it hurts so bad on the inside of me
my heart sinks and my eyes begin to water
because you're gone forever

And I miss you so much,
I wanna feel your touch
and I wanna hear your voice

No matter what no one says
you were the best thing that ever happened to me
and if I could go back I woulda caught the bullet for you
but I want you to know that I love you
and you'll always be in my heart forever

Because I miss you and that will never change!
