"Back Into You"

Visit "[Back Into You](#)" on MotoLyrics.com

Picking up the pieces
Of our broken memories
There's one I can't let go of
That keeps me on my knees
See I know it's half my fault
That we couldn't stay together
But we said no matter what
We'd still be friends forever

How could you turn and just go
And leave me standing so cold
Now you wanna work it out
Tell me what's that all about
How could you up and move on
Like what you had for me is gone
Now you wanna work it out
But baby I'm

Chorus

Tryin to find my way back into you
When I think of how you left me (left me)
Baby it's not easy
But I'm tryin to find my way back into you
When I think about you've moved on
Baby it's just so hard

I never quit my love for you
Baby that's the truth
Too hard for me to move on
When I feel this way for you (for you)
See I know sometimes we need our space
Baby that's ok
But if you really loved me
Why'd you leave that way
Tell me how

How could you turn and just go
And leave me standing so cold
Now you wanna work it out
Tell me what's that all about
How could you up and move on

Like what you had for me is gone
Now you wanna work it out
But baby I'm

Chorus

Tryin to find my way back into you
When I think of how you left me (left me)
Baby it's not easy
But I'm tryin to find my way back into you
When I think about you've moved on
Baby it's just so hard

Tryin to find my way back into you
When I think of how you left me (left me)
Baby it's not easy
But I'm tryin to find my way back into you
When I think about you've moved on
Baby it's just so hard

Heaven knows every second
I'm away from you
I find it so hard (yes)
Find it so hard (yes)
I'd give anything to find the strength
To be with you
I want it like you do (yes)
Want it like you do (yes)
I just need some time
To find peace of mind
But before you go
I want you to know that I'm

Chorus

Tryin to find my way back into you
When I think of how you left me (left me)
Baby it's not easy
But I'm tryin to find my way back into you
When I think about you've moved on
Baby it's just so hard
