If I'm unskilled he makes me hope again
He can come for me as nobody else can
He knows the words
He can come for me
He can see through me when nobody knows me
Nobody knows me

He sees, he loves
He feels, he heals
He knows, he shields
He loves me, he loves loves loves me
He sees, he loves
He feels, he heals
He knows, he shields
He loves me, he loves me yeah, oh

The taps dance still when he embraces me
No question no claim he's love that wants me
He knows the words
He can come for me
He can see through me when nobody knows me
Nobody knows me

He sees, he loves
He feels, he heals
He knows, he shields
He loves me, he loves loves loves me
He sees, he loves
He feels, he heals
He knows, he shields
He loves me, he loves me yeah, oh
