C'mon bounce
C'mon bounce
C'mon bounce
Uh, uh
C'mon bounce
Uh, uh

Did you ever think
That it will last this long
You and I still going strong
(Let's make this last forever)
Ain't it funny
How time passes so fast
Feels like yesterday
When we first met boy

And nothing matters
Nothing in this world
When were together
How I wish that it will
Last for a long long time
You and me together boy
Me and you
You and I
Holding each other forever

In this place together
All we need is you and I
Down for whatever
(Say forever)
In this place together
Nothing really matters
When we're with each other
Ooh yeah
Oh ooh

I can remember when
You werent a part of me
That's how I know
That this was meant to be
My baby

You're my precious love
Sent from me from up above
God blessed the day
That we first met boy

And nothing matters
Nothing in this world
When were together
How I wish
That it will last
For a long long time
(Yeah, girl
We'll stick together
You have me girl forever)
Me and you
You and I
Holding each other forever

In this place together
All we need is you and I
Down for whatever
(Say forever)
In this place together
Nothing really matters
When were with each other
Ooh yeah
Oh ooh (2x)

Yeah yeah
Check it
I need a girl
Who'll be down
To the end
Should be there
Through the thick
And the thin
And when it's time
Took it strong
When it's love carry on
On hurt uh ah candy pane
And I ain't looking
For a girl
Who is out by herself
Tryin' to get
A little come up on me
And let me
Give you the run down
So you wanna be with me
This here aint for free
You better be
Better to ride

Better to die
And when the time comes
Ready to try
To make this thing work
Through the hurt
Through the pain
Through the shame
Making them what were not?
Everytime of our game
All I need
In this life of sin
Is just me
And my girlfriend
Ride out till
The end of the world
Just me and my girl
Only just you and me?
Coz everything that I need
Is here with you

In this place together
All we need is you and I
Down for whatever
(Say forever)
In this place together
Nothing really matters
When were with each other
Ooh yeah
Eversince you came in my life
(Can't live without you
By my side(3x)

No matter where we go
All we need is you and me
When the stormy weather comes
Baby boy it's you and me
I'll be down to the very end
Coz I know it's you and me
Down for whatever
Together forever (2x)
