Well these bottles and stones*
We collected from our shows
We could line them one by one
Cause your pain is my pain
We'll go out of this just the same
We're better when our paths combine
I nearly drove past the sign
[Chorus:]
I'll never leave you
I'll never be like that
I'll be the one I was in life
I'll never leave you
I'll never be like that
I'll be the one I was in life
Attached, she's born
Even when I'm tired and worn
Her father's window's first daylight
Well the past is just dead
A thousand monkeys in my bed
The only thing I have is time
To bring back this bloodline of mine
[Repeat Chorus: (2x)]
I was in life, yeah
