Oh, this is super real
You need to find a lot of energy for me
And no, it don't come free
'Cause it's the creme-de-la-creme
And it's all right

Let's take a ride
Through the city, see it come to life, uh-huh
Straight through the light
I'll be standing my ground
Till the light's out, lock the door

Got to be a modern girl
To live inside a modern world
Always be calm, be cool and collected

Non-stop boogie, don't stop
Non-stop living, can't stop
Non-stop boogie, won't stop
Non-stop
Modern timing

Got to be a modern girl

Mister Laser-Beam
I think we have a little chemistry between
It's a crazy scene
It's got you, got you doing back flips for me
I take no side
I'll do anything I have to do to survive
This modern life's about taking control
New sensations take their toll

Got to be a modern girl
To live inside a modern world
Always be calm, be cool and collected

Non-stop boogie, don't stop
Non-stop living, can't stop
Non-stop boogie, won't stop
Non-stop

Modern timing

Non-stop boogie, don't stop
Non-stop living, can't stop
Non-stop boogie, won't stop
Non-stop
Modern timing

Non-stop boogie, don't stop
Non-stop living, can't stop
Non-stop boogie, won't stop
Non-stop
Modern timing

Don't stop, won't stop
No, we can't stop
Don't stop, won't stop
Modern timing

Don't stop, won't stop
No, we can't stop
Don't stop, won't stop
Modern timing

Don't stop, won't stop
No, we can't stop
Don't stop, won't stop
Modern timing

Don't stop, won't stop
No, we can't stop
Don't stop, won't stop
Modern timing
