Taliep Taliep

Was shot in the head last night
He was executed in his own home
It's not the first time my bra
That such a thing happened here, you ask
Why are the cops away if we call that number?

We are so sad and so lonely
Without that man with his melody
Mandate tunes and those confused harmonically
He was the prophet of the city
Now he's running on empty
Forever in Eternity
I hope he's happy

There is no answer
Is there anyone who wants to respond
To whom should we report
How long must we fight
The streets are full of blood
Every day a funeral
They steal all our stuff
Reconciliation Day
