Same old song going round and around
It's not where I'm at, it's just where I have found myself
Still the sounds keep the wolves from the door
This is my song

Kill love now, don't be pure, don't be kind
Kill love now, for your own peace of mind

Kill love, kill love

These are the days of futures by design
So does your faith give you powers of immunity?
I don't care if you're right or I'm wrong
This is your life

Kill love now, don't be pure, don't be kind
Kill love now, for your own peace of mind

Kill love, kill love
Kill love, kill love

Buffalo standing
Buffalo standing
Buffalo standing

Kill love, kill love
Kill love, kill love

Kill love, kill love

Buffalo standing
Buffalo standing
Buffalo standing
