Someone said the world was under ether  
Better bet your bottom dollar  
Better bet your bottom dollar  
That before your eyes we turn to dust  
Bodies rearranged

Someone said the world was all but dried out  
Read it on the walls around you  
Waiting for the paint to dry  
Well, you might not have to wait very long  
Talk about it, think about it, hey

Ether stole your thoughts while you were sleeping  
Came in through an open window  
Looking for an open mind  
And it wiped that smile right off your face

Rock 'n roll radiate  
Talk about it, think about it, hey

Under ether  
Under ether  
Under ether  
Under ether

Well, you might not have to wait  
Talk about it, think about it, hey

Under ether  
Under ether  
Under ether

Talk about it, think about it, hey  
Think about it

Under ether  
Under ether  
Under ether  
Under ether
