I walked alone and I lived simply my own life  
And nothing matter besides my needs  
I used my way and my words like a bold knife  
To clear the road and to where it leads

And then I found you, now i know where I'm going  
And what my life is meant to be  
I feel a strength inside my heart that is growing  
And it just conquers my inner me

Always and forever with you  
And no matter what I'll be there  
Baby you're too good to be true  
And I have it all if you care  
Always and forever with you  
In your eyes I see my dreams shine  
Ask me to be yours and I'll do  
And with you I'll make the world mine  
With you together  
With you forever

I place my whole life in this ring on your finger  
I hold your hand and I walk ahead  
I play this song for you as I am your singer  
I'll be your lover, I'll be your friend

Always and forever with you  
And no matter what I'll be there  
Baby you're too good to be true  
And I have it all if you care  
Always and forever with you  
In your eyes I see my dreams shine  
Ask me to be yours and I'll do  
And with you I'll make the world mine  
With you

Always and forever with you  
And no matter what I'll be there  
Baby you're too good to be true  
And I have it all if you care  
With you together  
With you forever
