feat. Camille

I want it all or nothing
So what you waiting for?
Don't need your cars, your money

You know I got my own
I work so hard for your love
Hard, hard for your love
I work so hard for your love
Hard, hard for your love

Saw you at the gala, I knew from one day
She never been lazy, she works for the money
And we got half beat, now we both balling
Told me she got a new yacht in West ...
I'm out clubbing with the clique, let me call him
Cover me, I'm gonna be dancing this morning
Hot gal and her dance, I love that
One look in her eyes and I was falling

I want it all or nothing
So what you waiting for?
Don't need your cars, your money
You know I got my own
I work so hard for your love
Hard for your love
I work so hard for your love
Hard for your love

I want it all or nothing
So what you waiting for?
Don't need your cars, your money
You know I got my own
I work so hard for your love
Hard for your love
I work so hard for your love
Hard for your love

I got the fragrance right
And my next, she's chilling

Right choice is free so now she's willing
She smells the millions sent in the air so
We just toast to how we live it
She get silly in my ear, though
Saying the things I really wanna hear, though
What? You wanna really wanna where, though?
That's cool, as long as we're all clear, though

I want it all or nothing
So what you waiting for?
Don't need your cars, your money
You know I got my own
I work so hard for your love
Hard for your love
I work so hard for your love
Hard for your love

I want it all or nothing
So what you waiting for?
Don't need your cars, your money
You know I got my own
I work so hard for your love
Hard for your love
I work so hard for your love
Hard for your love

We got girls hanging round in a circle, I'm in it
And I'mma pick out the prettiest one
'Cause tonight I'm feeling ambitious
I'm winning here 'cause
She could be any race
'Cause I'mma still be me to the finish
Because you've been in the top for so long
It just goes down quicker, that's simple physics

You hear a song on the radio
And then you want me, keep thinking of me all night
No, I don't want to let you go
But you gotta show me I'm your one and only tonight

This place is 80% full of women
And I can see the last girl sitting at the bar, chilling
She's looking pretty but she don't wanna dance
So I'm acting silly, I'll bring out the car
She likes to party and I love a laugh
When it turns 10:30 I'll be in her yard
Have a crate of ' over the carpet
And me all over the '

I want it all or nothing
So what you waiting for?

Don't need your cars, your money
You know I got my own
I work so hard for your love
Hard for your love
I work so hard for your love
Hard for your love

I want it all or nothing
So what you waiting for?
Don't need your cars, your money
You know I got my own
I work so hard for your love
Hard for your love
I work so hard for your love
Hard for your love

I want it all or nothing
So what you waiting for?
Don't need your cars, your money
You know I got my own
I work so hard for your love
Hard for your love
I work so hard for your love
Hard for your love
