We do dis ting. Rules and regulations.
I've been a skuller doing ching chang walla.
Real life, not no sci-fi horror.
Walk by today, drive-by tomorrow.
Talk out, get blazed, why do you bother?
You've been wally since Tim Tam Tommy
Go raves, get paid, but they don't wanna do it proper.
Rep my crew Roll Deep, since Ip Dip Do, And I always
have something to offer
Brand new clobber, paid top well I, plus I aint no shotter
or robber.
If you bare good at grime n ting then don't bother-get
smacked up today, get smacked up tomorrow.
If you wanna take the piss then you're gonna hear
something else holla.
See that girl over there- she's mine, I'm on her, so
family don't bother.

Non-stop gash, penetrate that, the album went silver,
celebrate that.
Anybody get rude to the roll deep crew, then no
longting we regulate that

Yo, my name is Skepta, I'm in Roll Deep but I live in
North London so sometimes I don't see them.
More time I see Wiley and Matt Scratchy and Danny and
Scratch, Flow Dan and Karnage on the weekend.
No G's in trouble, my nigga, that's why I'm sellin
boydem to freedem.
Some man don't know that I'm in roll deep, coz they
never heard me on In At The Deep End.
I rep roll deep but I'm not from E3, don't hate me coz
you see me on the TV, talk about what you gonna do
when you see me, and when you see me you say
Skepta, wah gwan, easy.
That's how I know you ain't greezy.
I lick a shot and disappear like a genie, everybody in

the country knows me.
I'm a soul survivor like young jeezy.

Dem man are hiding, let them carry on. The studios'
built, now nuff more songs.
Non stop bars, non stop beats, non stop heat I mean

Non stop cash when I got my gat, too many can't flock
that.
Become a non stop gonner.
I mean non stop acting, non stop tactics, man I practice
on your spastics.
See, say I topple and iron like lying in a Zion.
Check that, deep, dem man are French plastic.
Biggin em again them man are just matchsticks. I aint

Yeh man. Look, all I wanna do is celebrate, play nice
games like chess; checkmate.
Separate the rude from the fake-are you one of them?

Real recognize real game that's the bullet and Jet Le
that's me I boogie, come to the dance in a blacked out
buggy, leave out the dance with a girl in a mini.
When I get come home gonna show her my buddy.
Money, funny how it changes the plot, the UK's on the
block, yeh that's a lot.
Take times so you take times say please. This country's
system aint designed for me.
So I gotta move up how I move up, been through the
hard times. Heartbreak, Of. Jet be humble but Jet was
quick. Celebrate life coz the hoodies see the blick.
