Hang me up  
Lead me on  
Waste my time  
Make me feel like a part of your life

Forget my name  
Forget my face  
I'm such a fool  
Why can't I do the same thing to you

Break me slowly  
Change your mind  
Just devastate me

I know you see me  
I know you feel me  
I know you watch my heart break in pieces  
As time goes by  
I wonder why  
Some people are so damn mean

Break me slowly  
Change your mind  
Just devastate me

Make me hate the day  
You ever came my way  
Make me see the hope is a lie

I know you know my name  
I know you know this pain  
I know you love what you do  
I know you won't let me down

When you break me  
Make it last  
Just devastate me
