Hello! Say what? Oh yeah? Too much.

What's new? What's up? I here you're messed up, in
trouble, in pain

No need to explain - Expectation let you down

See yourself inside - When it gets real do you hide?

Can you face them or do they chase you down

How it could be and how it is - What it should be and
what it is

Just another version of the big fat truth

Mind the gap, see the distance - It's the blueprint of
resistance

Try to get your point across and it gets knocked back

Confrontation - static

Intimidation - panic

Eye to eye and wall to wall

Can you see what's here? Does it fill you with fear?

Can you keep your distance from what you hate?

Unbelievable, unreal, too shocked to feel

Look out! Mind the gap!

The truth ain't nothin' but the truth

Oh no! You don't say! They don't see it your way?

In the dark everyone was just like you

Now you're mad, uptight because the world's not right
You don't think and it makes you sad
Attitude affected, your way - rejected
Stupidity to get you through
Check out the gap that's all around you
Try to get close, it astounds you
How these people can be so relentlessly cold
Too easy, so blind. Too tough to be kind
Man, you're like some guy in a comic book
Get real, pull your head out
Get up, and get the lead out
Man, I know you can do better than that
Yeah you could stay away from arms length away from
life
But it takes strength to get up close and go all the way
live
Bridge the gap, take the first step
The more you go, the more you get
Down with the program and on with the show
The truth ain't nothin' but the truth
