"Up For It"

Visit "[Up For It](#)" on [MotoLyrics.com](#)

I take time thinking about the moves I'm gonna have to make

I take time thinking about the rules I'm gonna have to break

It's always push and shoving

Sometimes it comes to nothing

Sometimes it's more than a mere mortal man can take

I'm up for it

I'm up for it

I'm up for it

I'm up for it

The day to day can become such a trip

The mediocre can make you lose your grip

It's all on you and what you've got

You can play it cool or make it hot

I pay the price and take my shot

Stay up for it

I'm up for it

I'm up for it

I'm up for it

Burning out, wearing thin

Can't believe the shape you're in

There's always somebody who's gonna try to make it worse

There's always a line to stand in

As long as I'm still standing

You best believe I'm gonna make other plans

Stay up for it

Stay up for it

Stay up for it

Up for it, up for it

I am up for it man

Time, time, stop wasting mine, mine

Don't stand their crying, crying

Just make up your mind

Time, time, stop wasting mine, mine

Don't stand their crying, crying
Just make up your mind

Stay up for it
Stay up for it
Stay up for it
Stay up for it man

I take time thinking about what I'm gonna have to do
What it takes, how it is and when I'm gonna light the
fuse
All this push and shoving in the end all amounts to
nothing
I'll never get a second chance looking me in the face

I'm up for it
I'm up for it
I stay up for it
I stay up for it

The day to day can become such a grind
The mediocre can make you lose your mind
It's all on you and what you've got
You can play it cool or make it hot
I pay the price and take my shot

Stay up for it
I'm up for it
I'm up for it
I'm up for it

? or now in future shock
By the numbers ? ? stop
There's always somebodys who's gonna try to take
your brain
As long as they're selling something
I'll be smelling something
I've seen them come and go so many times

I'm up for it
I stay up for it
I stay up for it
I stay up for it
Now what else are you gonna do?
