"Your Number Is One"

Visit "[Your Number Is One](#)" on MotoLyrics.com

the chaos that surrounds you
the facts that astound you
at last your number has found you
your number is one
I'm looking high
I'm looking low
I want to know therefore I go
your number is one

see them pull into the slow lane
the no go lane
watch them take the poison that drives them all insane
your number is one
your number is one
your mind decided
your number is one
you are undivided
for you there is but one direction
your number is one
I am looking high
I'm looking low
I want to know therefore I go
your number is one
I am looking high
I'm looking low
I want to know therefore I go
your number is one

that number is one
one
one
the only one

that number is one
one
one
the only one

keep the ? intact
keep the ? at the top of the stack
when you get to all the other stacks
take the stack down off the rack

your number is one
your mind has decided
your number is one
you are undivided
for you there is but one direction
your number is one
I'm looking high
I'm looking low
I want to know therefore I go
your number is one
I'm looking high
I'm looking low
I want to know therefore I go
your number is one

that number is one
one
one
the only one

that number is one
one
one
the only one

yeah

one
one
one
the only one

one
one
one
the only one

your number is one
one
one
the only one

that number is one
one
one
